

About us RTBI

JECRC's Rural Technology Business Incubator (RTBI) is registered under not-for-profit society (Society for Transforming Engineering Education). Established as a formal business incubator with the inception support of the Department of Science and Technology (DST), Rajasthan, the aim of RTBI is to support rural and social start-ups, primarily those that enable scalable products and services.

The mission is to transform job seekers into job providers through RTBI. It shall provide basic business amenities and support required by the new start-ups to survive and thrive in their initial growth phase. Salient features of this RTBI include Incubation offices, meeting cum conference room, access to high-speed internet connectivity, fabrication lab with 3-D printer facilities, lab support for solar innovations and CAD Lab for prototype development. Incubates are selected based on feasibility and innovativeness of business ideas. Engineering undergraduates, graduates, faculty members and even functional start-ups are eligible for availing incubation and business support services from the RTBI. Even students from other colleges and universities are also eligible to apply.

EVENTS DETAIL

1. Entrepreneurship Awareness Workshop-Laghu udhug bharti, Jaipur-(19 feb 2019)

- *Total no. of Institutions Participants -59*

6. Social Initiative-- Fruit Full JECRC-(17th feb 2020 - Present)

Fruit Full JECRC, a noble initiative of adopting a fruit tree. It was a memorable day for the entire JECRC family, when our honorable Director, Shri Arpit Agarwal celebrated his birthday on 17th Feb 2020 by adopting the very first tree of FFJ. With the idea to make the entire campus green and be overloaded with the sweetness of fruits, team FFJ motivates all the JECRC family members to sign an MOU to adopt a Tree and take care of the Tree. This initiative primarily aims to connect all JECRC family members to our mother nature.

DETAILS

YEAR 2018-2019

S.No	Name of Startup	Brief Description
1	LifeNest	A Social entrepreneurship startup focuses on reducing the blood crisis in Rajasthan. Focusing on providing SDP 24x7 in Hospitals
2	Tejas- Transforming the Transportation	An startup by Sourabh Jangid and his team focuses on providing transport services efficiently. They are creating a platform to solve the communication problem between customers and transport organization.
3	OSCORP	Pragyan Vashishtha of 1 st year Mechanical Engineering is working on a idea to make a device which scans the user's movements in 3-D and send the same to the receiver.
4	4Fox Graphics	A service provider for various digital marketing, graphic designing, SEO, SEM, Website designing, Video editing, Audio Mixing.
5	Neophytes	A platform which will act as a one-stop shop for farmers, where farmers can directly buy fertilizer, seeds etc and can hire tractors and other machinery from sellers and renters. Sellers will have to register and upload their products on the portal and farmers will be able to select and buy according to their requirements or hire the machinery. Also, the farmers can sell their farm produce for good prices to the firms or local buyers directly. All the professional sellers will have to pay a monthly fee for using our portal, but the farmers will not be charged for it.
6	Dexterio	Hybrid module which is Prefabricated Rooms. You just have to choose from our pre-designed templates which are designed according to trend in the particular zone. Adding an advanced version of classes and manners with a technological blend of comforts. The templates are of 3 types: 1. Normal 2. Modern 3.Ultra Modern Mission is to innovate the interior designing industry by selling ready-made rooms instead of providing services or consultancy. We want interior designing to be E.F.C Easy Fast & Cheap

7	Inferno	Our aim is to provide a platform for the children of age between 8 and 16 who wants to find their interest, work on their interest or convert the interest into their careers but cannot make it due to lack of guidance or knowledge. So to change this scenario of choosing a careers based on typical stereotype (pursuing a career in medical and engineering fields) rather than based on their passion, we will provide guidance and proper knowledge via our application (and portal) in which there will be every possible field that one can think of to choose from and work on. Professional mentors will be available in every field so that all the students are properly reviewed and guided in the right direction.
8	Craft e Choco	Craft a Choco is a online chocolate selling startup. They are selling homemade chocolate. At present they have 32 flavours of chocolate and selling chocolate by facebook & other social media medium.
9	FeMo	FeMo is a SaaS-based dynamic feedback analysis and monitoring solution integrated into the cloud. FeMo helps the organization to have seamless surveys, analysis for the better implementation of the decision for better results. Based on the data analyzed by the engine and using AI we can have a more logical study of behavior. Some industries are listed below where our solution plays a vital role in observing their customer
10	The Elites	A boutique chain in which the entrepreneurs are planning to connect boutiques to customers being an aggregator by giving them pick & drop service, on time delivery and many more services in least possible prices.
11	Innovasia	Delivery of various products by drone from one place to other and other services related to this.
12	HERON	A software for the institutions, coaching classes for the video recording of the lectures, in a more secure way. The basic objective of HERON is to make the content secure which will help the creator from copying of the content.
13	Marble Mandi	An App and website to sell the marble online.
