Memorandum of Understanding

PCOS PCOD Clinic (Naturopathy Center for Healing), Jagatpura, Jaipur extends its collaborative relationship with JECRC Engineering College and Research Center, Tonk rd, Jaipur. The MOU is established with a purpose of helping both the staff and the students with the advantage of using natural modality to heal hormonal disorders. Hormonal disorders can be suffered by both male and female population. The following are some of the common significant symptoms experienced by those with hormonal imbalances (in both male and female):

- Migraine/ Frequent headaches
- Pain Syndrome
- Anxiety and Stress
- Depression
- Diabetes
- Thyroid dysfunction
- Weight gain/weight loss
- Fatigue
- Irritation
- Skin disorders
- Other mental disorders

We at PCOS PCOD clinic offer Annual membership to both the staff and the students:

Five Students in one membership card- Rs 500/- Annually (Comes to Rs 100 per student annually)

Staff and their families- Rs 500/- Annually (Family of 5 members included)

Benefits of Membership:

Consultation fee at the clinic only Rs 300/-

30% Off on Hormonal Therapies and Therapeutic/Clinical Counselling, 2% off on Insulin resistance.

Focus group of 5 students can have 2 group sessions in a month with an expert– objective is to allow students to have professional mentorship and guidance about the daily challenges/problems they may be facing in their life. These sessions can increase the academic productivity of the students and help them to be the best managers of their life.

Reverse Disorders with Proper Nutritional and Diet Guidance including Guidance for Physical Work Out

Since we believe in evidence based practice all the therapies will be recommended only after seeing the advised test results by the Doctor in charge or Naturopathic Practitioner. Pre test and Post test results after the administration of therapy will be conducted to understand the efficacy of the treatment in healing the hormonal disorders of the staff and the students .

We look forward in having a positive and fruitful collaboration with JECRC Engineering College and Research Center with the objective of providing natural treatment and care to the College fraternity.

Regards
