Redefine your limits……

To develop quality professionals with sound footing of basic engineering principles, technical skills and exemplary professional conduct. Work for students overall development Unleashing the potential of students using their deep insights, personal experience, knowledge and other perspectives. Besides teaching and industrial training, the holistic development program will include conversational and discussions, techno-cultural activities, exercises, games, writing assignment, mock interviews, guest lectures by subject specialist and motivational speakers to enhance a student's growth and success. Providing opportunities to bridge the gap between student and the external world to make students capable to face the corporate competitive environment. Students can show their talents while utilizing their skills, enhancing their knowledge and working capabilities and hence they can redefine their limits……

With These morals in our minds I.T. Department is always forward for betterment of students as well as other associates of our Department. I.T. Department not only care for the academics but also focuses on wholesome development of student

IT Ideathon 2.0

Subject- Proposal for event "IT Ideathon - 2.0"

With due respect, we want to propose an event named "**I.T. Ideathon 2.0**". Programming is the 21st century's new literacy. It is not limited to the domain of engineering, but extends to how we solve problems in the future. It embodies creativity and critical thinking. We believe that all final year students should equip themselves with development skills to facilitate with their future education and career development. Final year IT students will come together to show their talent in the exhibition organized by IT department, where they will show their learning in the form of minor projects.

What is an Ideathon?

All the great inventions were once a mere Idea. An idea that changed the world forever.
Our IT department has always been in the lead when it comes to nurturing new and innovative ideas whether it is from faculties or students.
"IT IDEATHON 2.0" gives the final year students an opportunity to express themselves. It gives them a platform to show their talent and exchange ideas with industry experts.

What are our visions?

1. **Promote creativity and team working -** IT Ideathon 2.0 provides a platform for students to unleash their creativity and collaboration skills, two vital skills for future learning and career development, through coming up with ideas and building the product collaboratively.

2. **To provide exposure-** It will give final year students an exposure of new and innovative changes through which the IT industry is undergoing.

3. **Promote "Developing Culture" -** Developing culture encourages people to think out of the box. Students challenge themselves to create something new and to take ownership of what they create. These are important but often neglected experiences.

Judgment Criteria:

- Idea of project
- Career Orientation
- Innovation
- Creativity
- Social Impact
- Content Delivery
- Team work
- User Interface
- Project outcome
- Question answers

Marks are distributed equally.

Requirements:

- Min 3. Labs(depends on no. of registration)
- Internet Connectivity
- Technical Certificate

Outcomes:
- To enhance students intellectual abilities as a future professional

Future Development:

After our program, we will organize many such programs to inspire our students.

POSTER

Invitation for I.T. Ideathon 2.0

(Format)

JECRC-IT

IDEATHON 2.0

"Changes call for innovation, and innovation leads to progress".

On the behalf of the department of Information Technology, JECRC it gives me immense pleasure to invite you in Ideathon 2.0.

An engineering project allows students to build up important learning skills such as knowledge enhancement, problem solving, developing solutions of complex problems using modern tools for the benefits of the society, time management, team work and communication.

Hence with the objective of providing the platform and unleash the potential of the students by showcasing their innovative projects developed during the academic session as Industry Defined Problems or User Defined Problems, providing an opportunity for the students to demonstrate their learning experience and bridging the gap between students and IT industry, Department of Information Technology, JECRC is going to organize the event, **Ideathon 2.0.**

Theme of the Ideathon 2.0 will be based on projects related to:

- **Web and Mobile Application Development**
- **Big Data Analytics**
- **Machine Learning**

Schedule:
Day/Date:- Monday, 10th December 2018
Timings:- 8:30 AM to 3:30 PM
Venue:- Level-5, C-Block, JECRC Campus

We are looking forward towards great success of this event.
